

This list is provided as a convenience to our customers and is comprised of testers that we have received reports from in the past. The list may not include all available Backflow Assembly Testers, and they are listed in no particular order. It is your responsibility to verify proper and current certification and other licensing requirements before hiring anyone to perform work on your premises.

Dalton Utilities does not recommend or guarantee any testers.

If you are a tester with proper and current certification and would like to be added to this list, please contact Russell Witherow @ 706-529-1029 or by email at Backflow@dutil.com
